Tohid Eghdami

Front-End Developer

- **Contact Info**

  Phone: +989119224882, +989307827788

  Email: TohidEq@gmail.com

  Location: Iran, Gilan, Rasht

- **About Me**

  Dream it. Believe it. Build it.

  I am a junior web developer with over 3 years of experience.

  I use JavaScript, TypeScript, and specifically the ReactJS library and NextJS framework to build progressive web applications which support responsive, localization and multi-theme (like dark mode).

  Practical searching and self-learning are my other abilities.

  I'm on track with learning more about Front-End, Design, DevOps and new stuff.

  In my free time, I enjoy working out, watching series and playing games with my friends.

- **Skills & Abilities**
